Our Annual spring Opening.

Will take place Monday night. Store will close at 5:30 to prepare. Will open at 7 and remain open until 9:30.

We promise our friends the finest display we have ever made. The new goods in every department are elegant in style and the hard times in this country and in Europe have made them moderate in price. We can promise our friends on Monday night at 7 o'clock a display that is worth coming to see.

N. B. FALCONER.

A New Enterprise. Mr. Fred L. Blumer of the city counil and Mr. A. B. Charde, late receiver of the United States land office at O'Neill, Neb., have formed a copartnersnip in the fire insurance line and opened very comfortable offices at rooms 204-5. J. J. Brown block, opposite the Y. M. C. A. building.

These gentlemen represent such well known and strong old line companies as the Phonix, Commercial Union, Royal, German American, Pennsylvania, etc They have engaged in the business with a view to making it permanent, and we have no doubt that in time theirs will be one of the leading agencies of the city. Mr. Blumer is too well known to city. Mr. Blumer is too well known to need an introduction to the businessmen. of Omaha. Mr. Charde has been for many years one of Omaha's strong up country friends. He has attained prominence as a democratic politician and a writer of some ability, and will no doubt in his new relation, although associated with a strong republican, still cling to the principles of his party, but not, however, in such a manner as to interfere in any way with the success of the new business venture.

The new agency was refused admittance to the Omaha Underwriters' exchange by a vote of that body, on the grounds of being a "double header," is now refused rates and recognition by the compact, but Blumer & Charde expect to observe the principles of the exchange and maintain their rates at least as steadily as do the gentlemen who dominate that consumptive insti-

Real Estate Men Who Are Actively at Work. The session of the real estateexchange yesterday morning was better attended than has been the custom for some time past. It finally leaked out that the increase was due to a re port which bad been circulated that A. P. Tukey would produce the lunch he had promised the members of the exchange. Mr. Tukey announced, however, that the members were mistaken as to the date, as next Saturday was the time set for his luncheon After the reading of the call the members

heid a regular experience meeting, and dis-cussed matters of current interest. The question of advertising the city and the work of the committee appointed at the mass meeting last Saturday evening came in for a fair share of attention, and numerous schemes were proposed. Several of the members stated that they had taken the mat-ter in hand individually, and had prepared circulars, setting forth the many advantages of Omaha and the special bargains in realty the sender had in hand. These dreulars were sent to eastern centers, onclosed with the leaflets issued by the exchange, and sim-

ilar advertising matter. The Metropolitan street railway charter was also discussed at considerable length, and a great diversity of opinion was seen to exist among the members on this subject. Several were of the opinion that the more street railway companies there were in the city the better it would be for the citizens, as competition would increase the facilities and

thereby increase the traffic.

Other members thought that one company, operating under the proper restrictions, was all that was necessary in a city the size of Omaha. The argument waxed warm, but neither side gave way.
Mr. George of the East Omaha land company said the company was going to work at once on their line from the white lead works to Sherman avenue, and would push

the work as rapidly as possible. ANXIOUS TO CLIMB.

Men Who Want to Carry Axes and Mount Long ladders. The fire and potice commissioners held a meeting yesterday afternoon to examine applicants for positions in the fire department. Judging from the crowded condition of the corridors, the fire laddies' life must be supposed a sinecure by a large number of people It looked as though half the unemployed men in the city had turned up to be examined. Men of all nationalities were there, Germans, Austrians, Poles, and of course many from the Emerald Isle. One at a time the men were called in by Chief Galligan and, standing in front of the commissioners' table, west through theorgeal of a running fire of

uestions from all of the members of the Commissioner Hartman always asked a man if he could climb a ladder eighty or ninely feet and not get dizzy. Most of the applicants thought they could, but scarcely any of them could give reasons for their belief. One man felt sure he could climb, because, said he, "when a boy I was always a great hand to dimb trees."

In all sixty applicants were examined, the board sitting from Juntil 5 p. m.

It was decided that each member of the

board make a list of twenty names. At the meeting Monday aight the commissioners will compare notes and decide upon the men to be appointed from time to time. Chief Galligan is in need of four men at once, and that number will no doubt be ap pointed at the executive session Monday All the commissioners were present, Mayor

A Scout Who Thinks the Indians Are

Peace eful. "Uncle Jimmy" Cannon, a well-known government scout, arrived in the city yester- THE ORIGINAL AND WORLD-FAHOUS day from Washington. Speaking of the re-cent Indian outbreak, he said:
"There would not have been any trouble at all, in my opinion if the Indians had not been asked to give up their arms. They got scared when asked to do this, and thought

they would be severely punished after they had complied with the order, and so pre-ferred to fight rather than part with their fire-arms.
"There won't be any trouble with the indians this spring, unless it should be stirred up by vicious white people. The Indians have more sense than some people give them credit for. They know Uncle Sam can easily put down any uprising and they wen't attemptit." Presenting for the first time in Omaha Thele
